SUMMARY

Java Full Stack Developer with hands-on experience building and securing scalable Spring Boot and React applications. Skilled in REST API design, database integration, and performance testing, with a track record of delivering production-ready projects with strong authentication, rate-limiting, and fault-tolerance features.

SKILLS

Languages: Java, JavaScript
Frontend: HTML, CSS, React
Backend: Spring Boot, REST APIs, JWT
Database: MySQL, PostgreSQL
Tools: Git, GitHub, VS Code, Postman, k6

EXPERIENCE

Full Stack Development Intern <i>Navodita Infotech</i>	<i>Mar 2026 – Apr 2026</i> <i>Remote</i>
- Collaborated on full-stack application development using Java, Spring Boot, and React, contributing to both frontend and backend modules. - Developed and integrated web application modules, supporting backend services to ensure scalable, maintainable functionality.	
Front-End Development Intern <i>Techvolt Software Pvt. Ltd.</i>	<i>Feb 2024</i> <i>Coimbatore, India</i>
- Built fully responsive web interfaces with HTML, CSS, and JavaScript, achieving a 98% score on Google's Mobile-Friendly Test. - Tested and debugged frontend features, resolving UI issues to ensure smooth performance across devices and browsers.	

PROJECTS

Halleyx Workflow Engine <i>Tech Stack: Java, Spring Boot, React, MySQL</i>	halleyx-workflow-engine-5r1i.vercel.app
- Delivered a full-stack workflow automation platform enabling multi-step workflows with conditional branching and approval gates, executed and monitored via a real-time web dashboard. - Implemented backend safeguards including duplicate-submission prevention, API rate limiting, and API-key-secured endpoints.	
ResumeForge AI <i>Tech Stack: Java, Spring Boot, React, JWT, PostgreSQL</i>	resumeforgei.site
- Built a production-ready AI-powered resume builder with ATS-friendly resume generation and PDF/DOCX export. - Validated infrastructure resilience with k6, confirming stable connection pooling under 150 concurrent users and clean recovery during mid-load backend failures.	
Campus Connect – Event Management System <i>Tech Stack: Java, Spring Boot, React, JWT, PostgreSQL</i>	event-two-ivory.vercel.app
- Engineered a platform managing campus event approvals, registrations, QR attendance, and certificate generation across student, HOD, and admin roles. - Hardened authentication with JWT access/refresh tokens, per-IP/account brute-force lockouts, and OTP-verified password resets.	
User Management System <i>Tech Stack: Java, Spring Boot, React, JWT, PostgreSQL</i>	user-app-delta-pearl.vercel.app
- Implemented custom token-bucket rate limiting and Resilience4j circuit breakers to prevent brute-force attacks and cascading failures. - Load- and stress-tested the health endpoint across 10–300 concurrent users with k6, maintaining p95 latency under 200ms.	

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering <i>Erode Sengunthar Engineering College, Erode, India</i>	<i>2023 – Present</i>
